To whom it may concern

### UNIGLOBE TESTIMONIAL

This serves to confirm that we have rolled out the Essential Access System at PG Bison through working very closely with Uniglobe. In particular Kas Lawrence, Susan Ontong and Sharmila Ravjee and I couldn't have asked for a better team.

In conjunction with these ladies, who never said "no", but always "we will see what we can do" and then did it, we manage to create a system that is unique to PG Bison, it's requirements and it's users. This system is also very user friendly as I have DTS's from the ages of 24 – 65 using the system without a problem.

We've gone live on 01 August and never looked back again. In one month we've already managed to save to Company almost R 50 000 with this system and this is only in month one.

I can recommend Uniglobe's services as well as the Essential Access System to anyone that is serious about driving cost down.

Please do not hesitate to contact me should you require more in depth information on the system and how it works.

Yours faithfully
